

TempStaff, Inc. was founded in 1981 and is a locally owned and operated staffing service with Carolyn Boteler as President and Owner. Continued excellent customer service has allowed them to become one of the largest independently owned services in MS.

TempStaff began specializing in clerical office support, but as the company grew and the work force changed, they changed as well to meet those needs. To cover the full spectrum of employment, they created thier Industrial Division as well as ExecuStaff, which meets the needs in the Permanent Placement Division. Their philosophy is “A Personal Touch to Employment Staffing:”

TempStaff has been a Member Firm of EWI of Jackson since 2004.
